Game developer and 3D technical artist currently contributing Godot/OpenXR gameplay and real-time coral assets to Shipwreck Discovery. Builds Python/Blender tools and independent 3D systems with focused testing, source-control collaboration, and inspectable delivery.

SELECTED WORK

CURRENT VR GAME DEVELOPMENT + TECHNICAL ART

Shipwreck Discovery

- Contribute Godot/OpenXR coral growth, planting, collision, wildlife balance, and focused VR interaction fixes.
- Prepare 18 coral growth-stage assets through retopology, UV/PBR work, GLB delivery, and Blender reimport validation.

Godot 4 GDScript OpenXR Blender PBR / GLB

BROWSER 3D GAME + AUTHORED WORLD PIPELINE

Tidefront / Ocean Drift

- Built player movement, feeding, abilities, camera states, HUD, lobby flow, survival pressure, and simulation systems.
- Connected authored Blender terrain, coral, landmarks, and export data to a Three.js/WebGL runtime.

TypeScript Three.js WebGL2 Blender WebSockets

MERGED EXTERNAL GAME CONTRIBUTION

Claude Citizen Solar Atlas Contribution

- Contributed 10 commits to a merged upstream PR for Solar Atlas navigation, pointer-lock safety, orbit selection, and visual polish.
- Worked within an existing TypeScript/Three.js codebase and iterated from review evidence rather than a solo greenfield repo.

TypeScript Three.js Vite Git Pull requests

EXPERIENCE

Game Developer & 3D Technical Artist

Lionfish Central / Shipwreck Discovery | July 2026 - Present

- Retopologize and prepare coral growth-stage assets for real-time VR, including UVs, PBR baking, and Godot-ready GLB delivery.
- Integrate coral growth, planting, placement, collision, and wildlife-balance systems in Godot.

Independent Creative Technology Developer

CurioCrafter / Independent Projects | 2023 - Present

- Build game prototypes, Blender add-ons, desktop apps, AI workflow tools, and creative production systems.
- Prototype procedural environments, player controls, HUD/UI, camera systems, real-time rendering, and simulation behavior.

Apprentice Electrician

Productive Electric LLC / Malm Electrical Contractors | 2021 - 2023

- Supported commercial electrical installation, jobsite preparation, safety procedures, materials handling, and field troubleshooting.

Wildland Firefighter / Electrical Pre-Apprentice

Job Corps | One fire season

- Served one season on a wildland firefighting crew, working within strict safety, fitness, communication, and field-tool procedures.

TECHNICAL SKILLS

Gameplay + 3D

Godot 4 GDScript OpenXR VR interaction

TypeScript Three.js WebGL C++

Tools + Technical Art

Python Blender API Retopology PBR baking

GLB pipelines Procedural terrain

Mesh operations

Delivery

Git + GitHub Feature branches PR collaboration

Regression tests Playwright Visual QA

Vite / Node.js

TEAM EVIDENCE

Current VR production role

Godot/OpenXR feature work plus an 18-asset coral retopology and PBR delivery for Shipwreck Discovery.

Merged upstream contribution

10 commits accepted into another developer's browser game through a reviewed pull request.

Verified Blender workflows

Installed add-on captures, geometry assertions, export checks, and portfolio-specific production renders.

EDUCATION + TRAINING

High School Diploma

Job Corps

Electrical Pre-Apprenticeship

Job Corps

Wildland Firefighting

One season of field crew experience through Job Corps.

ROLE FIT

Junior gameplay development

Controls, cameras, HUDs, simulation rules, browser 3D, and focused vertical slices.

Tools and technical art support

Blender add-ons, procedural content, mesh workflows, export tooling, and artist-facing QA.
